PRETIMED

TRAFFIC CONTROL SIGNAL PERMIT

Under authority of Chapter 80, Sec. 8, General Laws, Tercentenary Edition, the Department of Public Works hereby approves the following described traffic control signal installation, and auxiliary signs and surface markings, for the above location, provided that a permit for the opening of the road and the placing of structures thereon shall be received from the board or officer in charge of the road.

This permit is granted for the specific signal installation described herein and for its operation in accordance with the conditions set forth below and with the requirements of the Department of Public Works. The details for any material alterations or any continued or substantial departure from the provisions of this permit must be submitted to the department for approval with data sufficient to justify such modification. Failure to comply with these requirements automatically voids this permit during such time as non-compliance exists.

I. STANDARDS OF INSTALLATION

The traffic control signal installation and all auxiliary signs and surface markings which are used in conjunction with such installation shall conform with the requirements of the Department of Public Works and with the sketch which accompanies this permit.....

II. OPERATION OF SIGNALS

- (a) Type of control: Automatic
(b) Coordination: Progressive with adjacent signals @ Acushnet Ave.& Nash Road
(c) Special connections: Pedestrian Push Buttons
(d) Timing for automatic operation:

70 Second Cycle.

SEE REVERSE SIDE

- (e) Hours for Automatic Operation..6:00 A.M..to.11:00 P.M.....
Signals may be operated automatically for a shorter period of time but not for a greater length of time than is here indicated except when unusual conditions arise which temporarily justify longer operation.

- (f) Flashing Operation:- Whenever a signal is not operating as a control device (stop and go), it must Flash Yellow or Flash Red as set forth in the signal sequence and at the rate of 50-60 flashes per minute unless otherwise specified in Part II(d) of this Permit.

- (g) Manual Operation: Signals may be operated manually at any time irrespective of the hours designated in Part II(e) of this permit.

- (h) Discontinuance: Signals may be discontinued at any time. When this is done signal faces must be turned away from traffic, taken down or hooded, and the District Highway Engineer notified.

Permit B-140 - Automatically cancelled

This permit will supersede and cancell

permit No. 1272 issued on May 1, 1951 when the revisions shown herein have been accomplished, provided the work has been completed on or before

August 31, 1971.
