Re: Traffic Signals @ Cove Rd, Rodney French Blvd. and Brock Ave.

Bob Vaness
Bob Vaness

Attached please find the copies of the design plans for the Traffic Signals at the above mention location.

It appears that they have split the intersection into four separate phases #2 #6 #4 and #8 which will also work as a preferential phase sequence of (#2 & #6) and (#4 & #8) depending on the traffic demand.

Please let me know if you meet with Bob Vaness.

If you need additional information please contact my office

Thanks

Duarte
