309 SMITH ST
NEW BEDFRD MA 02740

Dear Customer,

Thank you for your recent application for electric service. A new electric service connection or improvement project requires collaboration between NSTAR, our customer, and local city or town authorities. The flow chart and checklist below describe the steps we will go through together, as we move toward energizing your service. You may check work order status at any time through the web by going to the Business home page of www.nstar.com and selecting "Work Order Status".

Service Request Checklist

Please review the following checklist, which highlights some steps and information that may be required for this request.

- ☐ Consider installing high efficiency equipment
- ☐ Confirm the service request summary and account information below (Note: must be done by the customer responsible for the energy charges)
- ☐ Submit design deposit to NSTAR (This payment will be applied to the total cost of project and is non-refundable if project is cancelled.)
- ☐ Submit to NSTAR two (2) copies of city/town approved site plans with proposed location of electric service
- ☐ Submit a signed easement allowing NSTAR equipment to be installed on the property (if applicable)
- ☐ Arrange for NSTAR to inspect all related non-electrical equipment (i.e. meter trough) installed by contractors
- ☐ Pay in full any construction payments to NSTAR (if applicable)
- ☐ Submit corporate papers and/or security deposit from customer of record responsible for energy billing (if applicable)
- ☐ Obtain approval from city/town electrical wiring inspector

Service Request Summary and Customer Account Information

Please review the information in this section for accuracy and confirm to NSTAR. **The customer of record, listed here, is responsible for all energy use charges.** For your protection, we require confirmation of the account information by the customer of record prior to activating new service.
