William Street Replacement
New Bedford
NL314BT008
SRNB1713

Remove 236' of water damaged 500JB cable and replace with new 625JB as indicated on this print. Temporary RG-11 drop will need to be established first above grade in order to maintain continuity of the plant in the area. Once in place work with Plant Ops to splice and activate new hard-line cable. Police detail is needed for project.
