

CITY OF NEW BEDFORD

APPLICATION FOR LAYING BUILDING SEWER AND/OR DRAIN SERVICE

Application N<sup>o</sup> 19685

June 10, 1974  
Date

To the Mayor and City Council:

I hereby request that a building sewer and/or drain be laid for the premises at .....

..... S. side Churchill St. 150' ± W. of Barnard St. ....

to connect with the sewer/drain in ..... Churchill St. .... street,  
the same to be laid in the street and the surface repaired as directed by the Commissioner of  
Public Works.

I hereby agree to pay at the office of the City Treasurer all cost of performing the above  
work in the manner specified, in excess of the deposit made herewith, within 10 days after the  
completion of the work.

It is understood and agreed that the deposit made with this application shall be applied  
to the payment of the cost of performing the work done, and that any excess of deposit over the  
cost shall be returned to me by the City Treasurer.

Owner agrees to supply all necessary mater-  
ials and ..... transit ..... pipe.

to be assessed.

1903

1903

The water supply for the City of New Bedford for the year 1903 was derived from the same sources as in the previous year, namely, the Quaker Run Reservoir, the Quaker Run Dam, and the Quaker Run Tunnel. The total amount of water supplied was 1,000,000 gallons, or 2,500,000 cubic feet. The average daily consumption was 2,700 cubic feet, or 10,080 gallons. The maximum daily consumption was 3,500 cubic feet, or 14,000 gallons, and the minimum was 2,000 cubic feet, or 8,000 gallons. The water was supplied at a pressure of 40 pounds per square inch. The cost of the water for the year was \$10,000.00. The water was supplied to the City of New Bedford by the Quaker Run Water Company, which was organized in 1888. The company has a capital of \$1,000,000.00. The water is supplied to the City of New Bedford by the Quaker Run Water Company, which was organized in 1888. The company has a capital of \$1,000,000.00.
