

CITY OF NEW BEDFORD

APPLICATION FOR LAYING BUILDING SEWER AND/OR DRAIN SERVICE

Application **Nº 19697**

June 13, 74
Date

To the Mayor and City Council:

I hereby request that a building sewer and/or drain be laid for the premises at N. S. Westgate St. 180' ± W of Barnard Street
to connect with the sewer/drain in Westgate Street street,
the same to be laid in the street and the surface repaired as directed by the Commissioner of
Public Works.

I hereby agree to pay at the office of the City Treasurer all cost of performing the above
work in the manner specified, in excess of the deposit made herewith, within 10 days after the
completion of the work.

It is understood and agreed that the deposit made with this application shall be applied
to the payment of the cost of performing the work done, and that any excess of deposit over the
cost shall be returned to me by the City Treasurer.

TO THE COMMISSIONER OF THE DEPARTMENT OF HEALTH
FROM THE BOARD OF HEALTH
SUBJECT: Report on the results of the investigation of the
epidemic of typhoid fever in the City of New York,
during the year 1916.

The Board of Health has the honor to acknowledge the receipt of your report on the results of the investigation of the epidemic of typhoid fever in the City of New York, during the year 1916. The report is most interesting and contains valuable information regarding the progress of the epidemic and the measures taken to control it.

The epidemic of typhoid fever in the City of New York, during the year 1916, was one of the most serious in the history of the City. It was caused by the contamination of the water supply with the typhoid bacillus. The epidemic was first noticed in the summer of 1916, when a small number of cases were reported. As the summer progressed, the number of cases increased rapidly, and by the end of the year, the epidemic had reached its peak.

The Board of Health has taken prompt action to control the epidemic. It has ordered the closure of the water supply, and has taken other measures to prevent the spread of the disease. It is hoped that these measures will result in the complete eradication of the epidemic.

The Board of Health is most grateful to you for the valuable information contained in your report. It is hoped that the measures taken to control the epidemic will result in the complete eradication of the disease.

Very respectfully,
The Board of Health

Approved by the Board of Health,
January 1, 1917
