

CITY OF NEW BEDFORD

APPLICATION FOR LAYING BUILDING SEWER AND/OR DRAIN SERVICE

Application **Nº 19792**

#50 SAM. BARNET BLVD.

C. P. BOURG

8-7-75

Date

To the Mayor and City Council:

R133 L45

I hereby request that a building sewer and/or drain be laid for the premises at .....

S. Side Barnet Blvd. 190' + W. of R. R. Crossing

to connect with the sewer/drain in Samuel Barnet Blvd. street,  
the same to be laid in the street and the surface repaired as directed by the Commissioner of  
Public Works.

I hereby agree to pay at the office of the City Treasurer all cost of performing the above  
work in the manner specified, in excess of the deposit made herewith, within 10 days after the  
completion of the work.

It is understood and agreed that the deposit made with this application shall be applied  
to the payment of the cost of performing the work done, and that any excess of deposit over the  
cost shall be returned to me by the City Treasurer.

Re: Proposed New Bedford Plant - Barnet Blvd.

Dear Mr. Reny:

We have reviewed your Supplementary Information Form as required for your sewer permit application and the accompanying opinion plan dated March 21, 1975 by Tibbatts Engineering Corp.. The following conditions must be adhered to for permit issuance and your final connection to the sewer system:

1. Submit plan showing profile and location of building sewer.
2. Submit plan showing method of draining the site and building, including layout of structures, type of materials, profiles of pipe, and details of structures.
3. Be advised that no connection of roof downspouts, foundation drains, araway drains or other sources of surface run-off shall be made to the public sewer.
4. A standard successful exfiltration test must be performed on the completed sewer service in the presence of a representative from this Department.
5. All discharges to the public sewer shall conform with the existing City Sewer Use Ordinance (Chapter 1 of Title II-City Code) and subject to any future changes also.

In conclusion this permit will be issued based on the understanding that only domestic sewage shall be discharged to the public sewer (i.e. - no industrial wastes.)

Very truly yours,

*George H. Brucher*
