

CITY OF NEW BEDFORD

APPLICATION FOR LAYING BUILDING SEWER AND/OR DRAIN SERVICE

Application **Nº 19876**

May 3, 1976

Date

To the Mayor and City Council:

I hereby request that a building sewer and/or drain be laid for the premises at

1239 Cardinal Street

to connect with the sewer/drain in Cardinal street,
the same to be laid in the street and the surface repaired as directed by the Commissioner of
Public Works.

I hereby agree to pay at the office of the City Treasurer all cost of performing the above
work in the manner specified, in excess of the deposit made herewith, within 10 days after the
completion of the work.

It is understood and agreed that the deposit made with this application shall be applied
to the payment of the cost of performing the work done, and that any excess of deposit over the
cost shall be returned to me by the City Treasurer.

Application No. 1935

The applicant, The Living Building Co., has applied for a license to erect a new building on the site of the old building at the corner of 12th Street and 1st Avenue, New York City.

The proposed building is a five-story structure, to be used for residential purposes. It is to be built on a lot measuring 25 feet wide by 100 feet deep.

The applicant has submitted plans for the proposed building, which show the building to be a rectangular structure, with a flat roof and a central entrance.

The applicant has also submitted a statement of the estimated cost of the proposed building, which is \$100,000. This cost includes the cost of the building materials, labor, and other expenses.

The applicant has also submitted a statement of the estimated value of the proposed building, which is \$150,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the land on which the proposed building is to be built, which is \$50,000. This value is based on the estimated value of the land in the neighborhood.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.

The applicant has also submitted a statement of the estimated value of the building, which is \$100,000. This value is based on the estimated cost of the building and the estimated value of the land on which it is to be built.
