Mr. Frederick Gammans
Chief Engineer
Department of Public Works
New Bedford, Mass.

Dear Mr. Gammans,

This department requests that Jose Moniz of 243 Oakdale Street be allowed to hook up to the city sewerage system through Bayberry Housing Project.

In 1973 when he built this house he was issued a temporary permit with the understanding that he would connect to city sewerage at the Rockdale West Housing Project but the contractor never extended the sewer line that far.

In the past year Mr. Moniz's septic system has been a health hazard and he has been threatened with court action unless the nuisance is abated.

Yours truly,

Mary E. Leahy
