Dear Sir:

Reference is made to my letter to Harbor Inc. of September 12, 1980, and also to a subsequent telephone conversation between yourself and Mr. Bill Boucher of this Department relative to the failure of Harbor Inc. to secure the required sewer connection permit for the Intermediate Care Facility being constructed in the City's north end.

Recent inspection by a Representative of the Department of Public Works revealed that such a sewer connection has in fact been made, apparently in direct defiance of the express prohibition stated in the above referenced letter.

Be advised, therefore, that unless the required permit is obtained and attendant information as outlined to you by Mr. Boucher in your phone conversation is supplied by Friday, December 19, 1980, the aforementioned connection will be sealed and rendered useless, at Harbor Inc.'s expense.

Very truly yours,

George H. Brightman
Commissioner DPW

Dear Sir:

Preliminary inspection by our inspector reveals that the sewer service for your Intermediate Care Facility in the Sassaquin Area has not been located in accordance with the drawing submitted to, and approved by this department.

Please be advised that NO permit for connection to the City's Sewer System will be issued, and connection thereto is expressly prohibited, unless and until a revised drawing showing the actual location of such sewer service pipe is submitted to and approved by this department.

Yours truly,

George H. Brightman
