Gentlemen:

Submitted herewith are three copies, together with pertinent exhibits of our proposal for the development of low-income family housing under the authority of Chapter 705 of the Acts of 1966, as amended. We understand the requirement that if a planning grant is awarded for new construction or substantial rehabilitation, the Housing Authority must apply for a comprehensive permit from the Zoning Board of Appeals. Also, we understand the additional requirement that the Authority must complete initial planning, including but not limited to selection of professionals, site, schematic designs, and securing of all local approvals and commitments within a period of 180 days from receipt of the planning grant, and to the best of our knowledge and belief that requirement can be met. We further understand that these requirements will necessitate the active cooperation of various local boards, departments, and commissions; we pledge our support to securing the necessary cooperation. We have read and concur with this application.
