Re: Sewer System Connection Permit  
City of New Bedford  
C.T. Male Project No. 89-06244

Gentlemen:

The enclosed Application for Permit - Sewer System Connection is intended to service the connection of a private nursing home (Hathaway Manor) to the municipal sewer system in New Bedford. The application was originally provided to the City in August of 1987, but through some oversight was never forwarded to your office. The facility is now completed and is awaiting an occupancy permit contingent on this permit.

Studies were performed during design which demonstrated adequate capacity of downstream sewers to handle anticipated flows. A local permit to tie in has been obtained.

We would appreciate anything your office could do to act on this request as quickly as possible.

Very truly yours,  
C.T. MALE ASSOCIATES, P.C.
