Re: Property at 200 North St. - Surface Drain Connection

Dear Sir:

The Department of Public Works Engineering Division is aware of the improper grade of the 8" pipe that is connected between the catch basin at the SWC of Emerson Street and the Storm Drain Man Hole at North St.

In telephone conversation between you and this department it was agreed that the Department of Public Works will correct the grade problem in the spring of 1990 or sooner when City forces are available.

Respectfully yours,

Leon C. Halle
Supervising Civil Engineer
Department of Public Works
