Dear Mr. Boucher,

It is our intent to construct a Kingdom Hall of Jehovah's Witnesses on lots 38 and 39, plot 72, said lots being on the S E corner of County and Merrimac Streets.

The proposed building has a seating capacity of 150. It will not contain any type of kitchen or shower facilities. Neither will it be used or rented out for any type of social function. Our meetings for religious instruction last a maximum of 2 hours.

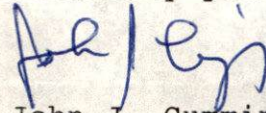

In view of this information our daily average sewer use is estimated as follows:

150 seats x 1.6 gal. ( 1 flush per seat ) = 240 gal.

Practically speaking not every person will use the restroom during every meeting. Neither will we use the maximum seating capacity for every meeting. Therefore, our actual daily usage should be well within the daily estimate.

Thank you for the consideration of this matter.

Sincerely yours,

John J. Cummings

*In view of the above information would the DPW be able to issue a sewer permit?*
