Re: Sewer Application Form Required for the Sewer Service Connection Installed by
the City of New Bedford Wastewater Division at 1064 Pelletier Street
(Plat125B/Lot 101)

This letter is to notify you that, as the result of the recent sewer line installation performed by the City of New Bedford Wastewater Division for your property, you need to come in to the Engineering Division (Room 303) at City Hall to complete a sewer application for record keeping purposes. The Superintendent of the Wastewater Division informed this department that the cost of this permit was included in the cost that the City of New Bedford Wastewater Division charged you to do the installation of this line to service your property.

According to the Wastewater Division, since you alone incurred the entire cost of this sewer line, this line is to be considered a private line. It is important that a record be on file to this effect, thus it is necessary that you come in to fill out this application soon.

Should you have any questions, please contact this Department at the number above. You may also contact the Superintendent of the Wastewater Division at (508) 991-6158.

Sincerely,

Ana S. Rosa
Junior Civil Engineer
