Sarah,

991 Westland Street, which is currently on septic, is going to be extending the City sewer from an existing sewer manhole on Westland Street (in the vicinity of Lot 41) westerly to house 991. In addition to running a service for house 991, they will also be reconnecting 981 (which currently has a 6" service) to this new sewer main since it's also along the route. Please let us know if there are any wetlands issues involving that area. Thanks.
