Phil

Commissioner Ronald Labelle agrees that the Bonds provided under your Contract are sufficient.

However you still need to apply for the permits with DPI in addition we need copies of the latest plans showing the proposed work, also you need schedule a construction meeting with DPI to make sure that all utility work is done and inspected in accordance with DPI Standards.

Thank you

Mr. Andrade,

We spoke yesterday regarding the permits required for Andre McCoy Field (Old Keith Middle School). In reviewing the application package for the "Approved Bonded Contractor's List" it states:

"This section shall not apply to work performed by a city department, or work performed on behalf of a city department by a private contractor who has provided payment and performance bonds to the city pursuant to the terms and conditions of a contract."

We have provided these bonds to the city. I would assume from this language that the additional bond and application would not be required. Is that correct? And if so, would I need to provide you with our bonds and insurance certificate? Please let me know when you have a chance.

Thanks,

Phil Lasker
