Subject: Fw: [EXTERNAL] Re: 956-958 Brock Ave

Amanda,

Can you please have one of the girls in repair make the following revisions to the permits Dennis referenced in his original email:

1. pull the original Disturbance and Obstruction permit on file in the draw and make an additional note "cut & cap of sewer permit #5761-10" in the description of work as Joe Dupre is now adding on to what he originally filed for on the job.
 - a. please make sure this revised permit gets scanned in to replace the original permit.
2. pull the sewer permit on file for this job (permit # 24501) and have the grading and utility sheet (sheet 3 of 6) of the PDF Dennis provided printed and attached to the original sewer permit. This additional utility sheet shows the drainage work being added to the site and since we currently have sewer & drainage under the same permit, we need to keep the paper trail consistent.

any questions, let me know.

thanks!

Stephanie Crampton

Subject: FW: [EXTERNAL] Re: 956-958 Brock Ave

Good Morning,

Please see the attached disturbance permit for the work being done by Dupre at 956-958 Brock Ave. Dupre will also be doing a Sewer cut/cap and an infiltration system and as such will need inspections for these. The sewer permit number you can reference for this is 24501. Please note that the plan attached to that sewer permit does not show this work so I have attached a plan set we can print the applicable pages and attach to the inspections. I have informed Joe that when they call to get the inspections they should reference this sewer permit number.

Please let me know if you have any questions.

Thanks and Have a Great Day,

Dennis Souza
