RE: TB-16-2890

County St. (ES) 139'± N. x William St.

(Renovation of Existing Structure to be converted into Bank - First Citizens' Federal Credit Union)*

*New Address: 468 County St. (formerly using 464 and 466 County St.)

Plot 52/Lot(s) 173, 176, 178, 353 & 399

Reviewed: 1/17/2017

Per Manuel Silva 1/17/2017, preconstruction meeting held and conditions discussed during said meeting must be adhered to. Will be providing full set of plans and pulling required D.P.I. permits by end of week, per Manny.

ASR-D.P.I. Engrg.

RE: TB-16-2890

County St. (ES) 139'± N. x William St.

(Renovation of Existing Structure to be converted into Bank - First Citizens' Federal Credit Union)*

*New Address: 468 County St. (formerly using 464 and 466 County St.)

Plot 52/Lot(s) 173, 176, 178, 353 & 399

Reviewed: 12/21/2016

***PLEASE NOTE:** A new address has been assigned to the above structure. Please update your systems and records accordingly. Also note that this location is made up of multiple parcels, and is not one lot as shown on the building permit plan submitted for review in View Permit.

The owner/developer is to:

1.) Build in accordance with approved S.P.R. plans and all D.P.I. comments on said review (per Memo to Planning Board dated 9/6/2016) and any other conditions as set forth by D.P.I. in regards to the development of this site. Any outstanding comments/issues must have been addressed prior to issuance of any permits from D.P.I. **All revisions must be reflected on the plan set(s) submitted prior to D.P.I. issuing any permits.**

2.) If this has not taken place already, contact D.P.I. for a preconstruction mtg. prior to the beginning of the project, and provide D.P.I. with a full set (paper copy) of the most recent construction plans for the site for review by D.P.I. before the preconstruction meeting. All requirements/conditions as set forth by D.P.I. at said meeting in regards to the development of this site must be met accordingly, and all construction must be in accordance to City of New Bedford Construction Standards and Specifications.

No permits will be issued by D.P.I. until the preconstruction meeting has taken place.

3.) Contact D.P.I. prior to applying for sewer/storm drain, water and/or sidewalk/driveway permits to discuss what materials will be required to be submitted to this office prior to these permits being issued, and obtain the necessary permits for all work being proposed that is within D.P.I.'s jurisdiction. Several paper copies of the plan sheet(s) showing the existing conditions and proposed work will be required by D.P.I. for permitting purposes. A permission letter from the property owner will be required in order for a representative/agent to sign permits. **Being that this is an existing structure, it will not be necessary to file a stamped foundation permit/as-built plan, however, the first three conditions listed here must have**

been fulfilled and the proper permits obtained from D.P.I. prior to a building permit being issued for this location.

4.) D.P.I.-Engineering has already contacted the owner (First Citizens') to measure for a new address number to correct pre-existing address issues at said location. The new number assigned will have to be posted on, above, or next to the northernmost entrance along County St. **No Certificate of Occupancy will be signed unless the legal address number that has been issued by Engineering for the door location(s) being utilized as the main entrance(s) of the structure are in place on the corresponding entrance(s).**

5.) Submit final site as-built to D.P.I. showing location of building and all utilities (i.e. sewer, storm drain, water, etc.) installed as part of this project for City records. **No Certificate of Occupancy will be signed until this has been submitted to D.P.I.**

Please also note the following, which may be applicable to your site:

- a.) A joint sewer maintenance agreement is required between parties sharing a sewer service line, and will only be permitted by D.P.I. under extenuating circumstances.
- b.) The integrity of any previously existing service being re-utilized must be determined, and said testing witnessed by a D.P.I. inspector, prior to connection. The owner/developer assumes all responsibility of re-utilizing said service. The vertical and horizontal separation required between water and sewer must be provided for any new pipe being installed, and in areas where vertical and horizontal separation cannot be achieved, encasement or sleeving of the pipe will be required.
- c.) Recorded easements must exist for any water, sewer and drainage pipes being installed on other parcels to service the subject parcel. Recorded easements should also exist for any water, sewer and drainage pipes traversing the subject parcel to service other properties.
- d.) All new commercial driveways (or alteration thereof) must go before the Traffic Commission for approval prior to D.P.I. issuing a Driveway Permit.

The following was a private comment to Inspectional Services:

Note to Inspectional Services: Please kindly print the comments for owner/applicant or direct them to D.P.I. for a copy.
