RE: TB-17-1917

Joyce St. (NS) 119' E. x Church St.

Plot 130B/Lot 984

Reviewed 8/16/2017

Site plan submitted must include the following information:

1. Location/size/type of proposed water service needs to be specified on plan. Water curb stop must be 1-1/2' from curb (or edge of road pavement), within the sidewalk area. Size of existing water main should be called out on plan. Any bends in the water service must remain within the private property, and a 10' separation distance must be maintained from sewer service throughout.
2. Location/size/type of proposed sewer service needs to be specified on plan. Sewer cleanout must be 2' from property line, within the sidewalk area, and location be shown on plan. Size of existing sewer main should be called out on plan. Linework depicting existing sewer main/proposed sewer service location is very faint on plan and needs to be changed to a more visible line type. Minimum size of proposed sewer service allowed is 6" and it looks like 4" is called out on plan.
3. Size of driveway brow (opening) called out on plan as 20', and the maximum allowed is 18' wide. Type of driveway brow proposed must be called out (i.e. bituminous concrete, concrete, etc...). Radii not allowed on driveway brow (must be straight shot to street line) and need proper transitions per City specs.
4. Roof runoff must be infiltrated into ground. Show location, calcs. and specs. for proposed recharge system on plan.

: ASR-D.P.I. Engrg.

RE: TB-17-1917
Joyce St. (NS) 119' E. x Church St.
Plot 130B/Lot 984
Reviewed 9/8/2017

Requirements to be met by Owner/Developer for this project:

1.) The revised site plan submitted to D.P.I., titled "Proposed Site Plan at Joyce Street, New Bedford, MA 02745", dated 7/25/2017, with a revision date of 8/31/2017, prepared by JC engineering, Inc. and stamped by John L. Churchill, Jr., P.L.S. and P.E.-Civil, was approved conditionally, pending the following revisions before applying for permits at D.P.I.:

- a. Polyethylene water service pipe is not allowed by D.P.I. (must be copper)...please revise on plan.
- b. Sewer service pipe must be SDR 35...please revise on plan.

The Owner/Developer is responsible for making sure that Inspectional Services is provided with the latest revised plan.

2.) Must provide 3 "stamped" copies of final site plan, as approved by D.P.I. at the time of this review, when applying for water, sewer/drain and driveway permits at D.P.I. [All pages must be "stamped" if it is a multi-page plan set.] Any changes made to the site plan after it has been approved by D.P.I. must be re-submitted for approval, even if the revisions were made per the requirements of another Department.] In addition, a copy of the foundation permit and of the "stamped" foundation as-built plan must also be submitted. Note that any representative/agent pulling permits on behalf of the owner must provide D.P.I. with a permission slip. If the property was acquired within the past 3 months, then the new owner must also provide a copy of the recorded deed showing property ownership.

3.) Must contact D.P.I.-Engineering to measure for building number (address) once front door is framed. The C.O. will not be signed unless the legal address assigned by the City is permanently affixed to, above, or next to, the entrance to which it was assigned such that it is highly visible from the street.

Please also note the following, which may be applicable to your site:

- a.) Any new mains installed must be inspected, tested (witnessed by a D.P.I. inspector), and approved for connection, and the respective as-built must be submitted prior to D.P.I. issuing permits for individual house connections. Installer is responsible for meeting minimum required vertical and horizontal separation for water and sewer mains and services.
- b.) The integrity of any previously existing service being re-utilized must be determined, and said testing witnessed by a D.P.I. inspector, prior to connection. The owner/developer assumes all responsibility of re-utilizing said service. The vertical and horizontal separation required between water and sewer must be provided for any new pipe being installed, and in areas where vertical and horizontal separation cannot be achieved, encasement or sleeving of the pipe will be required.
- c.) A joint sewer maintenance agreement is required between parties sharing a sewer service line, and will only be permitted by D.P.I. under extenuating circumstances.
- d.) Recorded easements must exist for any water, sewer and drainage pipes being installed on other parcels to service the subject parcel. Recorded easements should also exist for any water, sewer and drainage pipes traversing the subject parcel to service other properties.
- e.) The maximum width allowed for any residential driveway opening is 18'. Any other pre-existing curb cuts along perimeter of property will have to be closed.

: ASR-D.P.I. Engrg.

No PVC water service connections allowed.

:

: The home will be connected to city sewage.

: contractor req., hers rater req., stretch code performance req. req.

: Erect a 32'x26' foundation for a single family dwelling

: Until a permit has been issued Plumbing and gas fitting work shall not be installed ,altered, removed, replaced ,or repaired As per 248 CMR Mass. Fuel gas and Plumbing Code.

: 1. Water service to be 10ft away from sewer service.

2. Water service curb stop /shut off to be 1.5ft from face of curb/ pavement.

3. Water meter to be installed at pouint of entry into the building.

4. Owner to apply for a water permit.
