CITY COUNCIL	FEB. 27, 2014	
MAYOR	MAR. 3, 2014	

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million.

There are a number of reasons for this increase. First, the world population has increased by 1.5 billion people in the last 20 years. Second, the number of people who are undernourished has increased in almost every country in the world. Third, the number of people who are undernourished has increased in almost every region of the world. Fourth, the number of people who are undernourished has increased in almost every country in the world.
