## WATER REGISTRAR'S OFFICE.

June 20th 1877.  
To the Superintendent of the New Bedford Water Works.

Please put in a Service upon the premises described above, and make return of the expense of the same to this office. For

James H. Ashenway Water Registrar.

N. B. This application is for a 2 service in the Whitcomb property. The reason is that there is now a considerable amount of an insufficient supply. I find the pipe is 5/8 inch iron. If the present service is insufficient, I suppose the proper remedy is to take it up & put down another. A second service cannot be required if that now in use is perfect.
