Dear Mr./ Mrs. Beloli:

As you are aware of the City of New Bedford is currently reconstructing Union Street under a State Funded Road Reconstruction Project. The City's contractor, Tilcon Capaldi is currently replacing lead water services and broken sewer services along Union Street. The contractor had inquired if there would be a new structure built on this vacant lot in the near future. I would think that you do have plans to build on this parcel, or are trying to sell it as a buildable lot, utility services should be installed now.

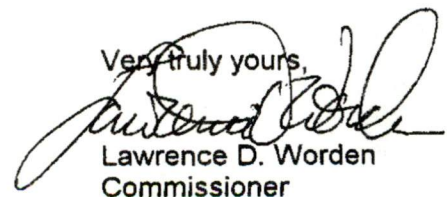

I do not know the time frame in which you plan on starting construction, if you even have any plans to build, but once we finish the road reconstruction project no one will be able to disturb the street surface for a minimum of five (5) years.

The City can instruct the contractor, Tilcon Capaldi to install a water service, sewer service and driveway brow to your property line at no construction cost to you. The only cost to you, as the property owner would be the cost of the sewer permit, water permit and driveway permit. The sewer and driveway permits can be obtained at City Hall's DPW - Engineering Division, Room 303, at a cost of \$30.00 each, and the water permit can be obtained at the Water Department on Shawmut Avenue, at a cost of \$25.00.

Time is very critical at this point, and if you are in the process of planning construction on this vacant lot, permits must be in place on or before March 1, 1999. Also, you might wish to contact Media One, Com Gas and Com Electric, to have them bring in their services at this time.

If you should have any questions or concerns, please feel free to contact Michele Silva of the Department of Public Works, at 979-1526.

Very truly yours,

Lawrence D. Worden  
Commissioner
