Re: Electronic Sales and Service request for sewer and/or storm drain permit.

Dear Mr. Gwozdz:

Mr. Claflin, President of Electronic Sales and Service has requested the Airport Commission to file for application for a sewer and/or storm drain permit. Mr. Claflin is located at 1484 Airport Road.

As Chairman of the Airport Commission, on behalf of the Airport Commission, I am required to sign off on any request for permits on Airport Property.

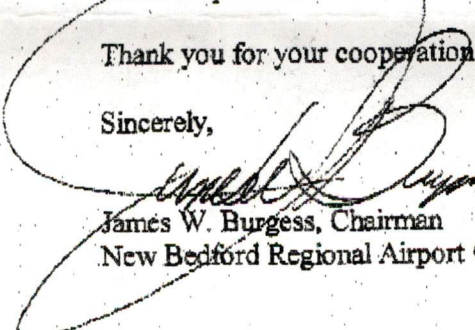

It is the intention of the Airport Commission to sign off for the permit requested by Electronic Sales and Service.

Electronic Sales and Service is aware that Airport Road is a newly paved road and the Airport Commission had informed all the tenants that wished to be hooked up to the sewer, to do so before the road be paved. If the tenant did not wish to do so at that time, once the road was paved they would have to use alternative means to install the sewer line from the existing sewer stub without excavating the newly paved road.

The Airport Commission is requesting that once the permit is issued, that the Water Department notify the Airport Commission in writing the date and time the construction will commence and a copy of the plans submitted by Electronic Sales and Service to the Water Department.

Thank you for your cooperation in this matter.

Sincerely,

James W. Burgess, Chairman
New Bedford Regional Airport Commission
