Cheveli,

Sandy is bring that over and dropping it in the Box as we speak. Please let me know when I can get the other permits, would like to get them all set today if possible.

Thank you,
Thomas

{This email originated from outside your Organization}

Once you have the water service permit pulled after that yes you would need to pull Disturbance + Obstruction Permits. Which if at that time the company is not at the maximum of \$5,000 in your surety, You would need a check for \$500 Disturbance + Obstruction are permits for work being done within the City layout permit generates at city council clerks Trench permit generates here \$30 for work being done in private property 3ft down and more.

You would need the water, sewer, or driveway permit before you could pull Disturbance/obstruction

Another questions please let me know.

Thank you

Cheveli Torres

Cheveli,

Good morning, will I need any other permits (Trench Permit or Street Opening Permit) for this? Or doe the fee for \$ 500.00 cover this?

Thank you,

Tom

Good Afternoon,

Attached you will find a permission slip, with that, the owner authorizes you to pull the water permit. I am assuming this is a 1" copper service which would cost \$500 check payable to the City Of New Bedford.

I can then, fill out the form send through email, once you have printed and signed. The water permit would be issued.

We have a box located at 1105 Shawmut Avenue. You could address to my attention. Please attached sketch with Permission slip & Check

Thank you

Good afternoon,

I spoke to Manny on this and he asked me to revise my drawing. I sent it to him, however I have not heard back. I have attached it for your information as well, I would like to install the water next Thursday, October 1st.

Thank you,
Thomas

Subject: 140 Nauset Street, New Bedford, MA

Good morning,

K. R. Rezendes, Inc. will be the contractor doing the Mass Dot project at the intersection of Nauset Street, Hathaway Road and Mount Pleasant Street. We will be leasing the land at 140 Nauset Street and would like to set up a

Office Trailer on the property. There is an existing water service that runs to the building from Mount Pleasant Street that we would like to connect into, to provide a 1" water service to the trailer. We will have a 275 gallon tight tank located under the trailer supplied and maintained by Mr Cesspool for sewage. I have attached a sketch / picture showing the proposed layout, please let me know what permits / fees that I will need.

If you have any questions or need additional information please contact me.

Thank you,
Thomas
