J. H. Hathaway Water Registrar.

5107

Arthur Welch.

Kempton St-

1. The first of the four is a small pipe of iron, 1/2 inch in diameter, and 1/2 inch in length, which is inserted into the ground at the point where the water is to be taken. It is then covered with a layer of earth, and the water is allowed to flow into it. The second is a larger pipe of iron, 1 inch in diameter, and 1 inch in length, which is inserted into the ground at the point where the water is to be taken. It is then covered with a layer of earth, and the water is allowed to flow into it. The third is a larger pipe of iron, 1 inch in diameter, and 1 inch in length, which is inserted into the ground at the point where the water is to be taken. It is then covered with a layer of earth, and the water is allowed to flow into it. The fourth is a larger pipe of iron, 1 inch in diameter, and 1 inch in length, which is inserted into the ground at the point where the water is to be taken. It is then covered with a layer of earth, and the water is allowed to flow into it.

WATER REGISTRAR'S OFFICE.

To the Registrar of the City of London, Water Registrar's Office, London.
