RE: 210 Hathaway Rd. Acct. # 14301

Dear Ms. Charles,

It has come to the attention of the Department of Public Infrastructure that you have water being drained from your property into the street. This is a violation of the City Ordinances of New Bedford, Section 22-5 Drainage onto streets – Buildings not to shed water.

- a) No person shall suffer such person's building or property to shed water on any sidewalk, street or another person's property in the City, to the injury or inconvenience of persons or their property.

Also, you have a water leak before the meter that needs to be addressed immediately. This is causing a waste in the City Water layout. Contact this office IMMEDIATELY upon receipt of this letter.

You have 10 days to correct the problem or the City will have no choice, but to terminate water supply.

Sincerely,

Ronald H. Labelle
Commissioner
